AUDITOR'S REPORT

To The Shareholders of

SAHA PATHANA INTER-HOLDING PUBLIC COMPANY LIMITED

I have reviewed the balance sheets in which the equity method is applied and separate balance sheets of SAHA PATHANA INTER-HOLDING PUBLIC COMPANY LIMITED as at June 30, 2010, the related statements of income in which equity method is applied and separate statements of income for the three months and six months ended June 30, 2010 and 2009, statements of changes in shareholders' equity in which equity method is applied and separate statements of changes in shareholders' equity, statements of cash flows in which equity method is applied and separate statements of cash flows for the six months ended June 30, 2010 and 2009. These financial statements are the responsibility of the Company's management as to their correctness and completeness of the presentation. My responsibility is to issue a report on these financial statements based on my review.

Except for the matters stated in the third paragraph, I conducted my review in accordance with auditing standards applicable to review engagements. Those standards require that I plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. Accordingly, I do not express an opinion on these financial statements.

For the financial statements in which the equity method is applied as stated in notes 9 to financial statements, as at June 30, 2010, the Company recorded investments in 16 associated companies from total 21 associated companies under equity method from the management's financial statements which were not reviewed by the auditors for totaling Baht 1,945.78 million equal to 13.71% of total assets and had share of profit from investments for the three months and six months ended June 30, 2010 of Baht 50.54 million and Baht 100.27 million equal to 14.99% and 17.79% of net profit and also has share of profit from investments in 17 associated companies for the three months and six months ended June 30, 2009 amount of Baht 52.31 million and Baht 86.81 million equal to Baht 14.62% and 16.18% of net profit. And I, therefore, was unable to apply the other reviewing to satisfy as to those investments value. In addition, 16 associated companies did not comply with the certain Accounting Standards which have been exempted in conformity with the notification No.21/2550 dated July 20, 2007 of the Federation of Accounting Professions required to exempt the Accounting Standards for the non-public company which the Company was unable to adjust the investments in associated companies and the financial statements in which the equity method is applied for the separate financial statements, respectively, since there is inadequate information and I was unable to apply the other reviewing procedures to satisfy in such transaction.

Based on my review, except for the matters stated in notes 9 to financial statements, relating to the scope limitation by circumstances, nothing has come to my attention that causes me to believe that the financial statements are not presented fairly, in all material respects in accordance with generally accepted accounting principles.

I have audited the financial statements for the year ended December 31, 2009 of SAHA PATHANA INTER-HOLDING PUBLIC COMPANY LIMITED in accordance with generally accepted auditing standards and I expressed a qualified opinion in my report dated March 18, 2010 pertaining to the Company recorded investments in some associated companies from total 21 associated companies investments in 16 associated companies record from financial statements audited by the other auditors, 14 associated companies equal to 13.66% of total assets and also recorded investments in 2 associated companies from the management's financial statements which were not audited by the other auditors had investments equal to 0.40% of total assets. I, therefore, was unable to apply the other auditing procedures to satisfy as to those investments value. In addition, investments in those 16 associated companies were not complied with the certain Accounting Standards which were exempted which the Company was unable to make adjustments of effects to investments in associated companies as if those associated companies applied with all Accounting Standards due to inadequate information. The balance sheets as at December 31, 2009 presented for comparison purpose, is a partial of the audited and reported financial statements. I have not performed any auditing procedures since that date.
